Notes

Upon the completion of the restructuring process within the SBA Services the sales of the Podravka Group will be reported according to two Strategic business areas – SBA Food and Beverages and SBA Pharmaceuticals starting from the first quarter of the year 2010. In compliance to these changes we report on the sales of the Podravka Group accordingly as follows:

SBA "Food and Beverages"

1. **Business program Podravka food**

- Podravka brands
 - Fruit and vegetable products, side dishes and other (Fruit and vegetable products, Side dishes, Mill and bakery products and other)
 - Baby food, sweets and snack
 - Fish and fishery products
- Other

2. **Business program dishes and food seasonings**

 - Food seasonings
 - Podravka dishes
- Other

3. **Business program meat**

- Podravka brands
- Other

4. **Business program beverages**

- Podravka brands
- Other

SBA "Pharmaceuticals"

Taking into account the fact that the restructuring process within SBA Services has finished, a reclassification of revenue was made and therefore the Group's revenue structure account differs from the one disclosed in the reporting period of the year 2009. Sales under Other have been separately disclosed for each business program within the SBA Food and Beverages, which from 2010 together with the sales of commercial goods, private brands, service production and B2B also covers a part of the revenue of the former SBA Services which due to the completion of the restructuring process have been reduced to the lowest possible level.

The sales of 2009 have at the same time been adjusted to the classification in 2010.

Sales revenue of the Podravka Group amounted to HRK 3,522.3 million, which is 2% less compared to the same period of the year 2009.

The sales of the SBA Food and Beverages totalled HRK 2,778.1 million, which is 78.9% of the total sales of the Podravka Group and represents a sales drop of 2% compared to the same period of the year 2009. This drop results from a lower level of sales of the SBA Food and Beverages on the Croatian market (-7%) where unfavourable economic trends, a drop of economic activities and the growth of sales of cheaper products and trade brands were noticeable throughout the year 2010. Namely, the constant growth of unemployment in Croatia¹ had increased consumer pessimism with negative impact on domestic consumption. The prepared projects and innovations in the product portfolio, accompanied by the economic recovery of the European Union had positively affected the sales of the SBA Food and Beverages on foreign markets where the sales of the relevant SBA grew 3%. According to market groups, foreign markets which have recorded sales growth are the markets of Western Europe, overseas countries and the Orient (16%), with the most prominent markets of Australia (29%), Austria (28%) and Turkey (173%) and the markets of Central Europe (7%) with the highest growth of sales on the market of Poland (20%).

The SBA Pharmaceuticals achieved sales in the amount of HRK 744.2 million, which represents a sales drop of 1% compared to the year 2009. This drop results from a lower level of sales on the Croatian market (-6%) due to the drop of sales of prescription drugs (-7%) and OTC products (-8%). A new General and Additional List of Drugs was adopted in June 2010 by the HZZO² with lower prices of a large number of drugs which resulted in a lower level of sales of prescription drugs on the domestic market. The drop of sales of OTC products resulting from recession effects and weaker personal consumption had an additional impact on the sales of the SBA Pharmaceuticals in Croatia. The SBA Pharmaceuticals achieved sales increase of 8% on foreign markets, with the highest contribution from the markets of Russia (62%), Slovakia (22%), Turkey (180%) and Poland (131%).

¹ Total increase of unemployment was 15.4%; Source: Central bureau of statistics, Monthly statistics report, no. 12, 2010. (data for the period 1-11.2010)

The BP Podravka Food suffered a 2% drop of sales compared to the same period of the year 2009. Sales of the product group Fruit and vegetable products, side dishes and other was slightly higher than last years' resulting from an increase of sales on the markets of Central Europe (18%), under the influence of higher sales of Tomato based products and Side dishes. The product group Baby food, sweets and snack achieved sales growth of 3% with the highest contribution from the markets of Slovenia (10%) and Bosnia and Herzegovina (6%). The sales drop of the product group Fish and fishery products of 10% was mostly

influenced by a lower level of sales of the relevant product group on the markets of Serbia, Bosnia and Herzegovina and Croatia, respectively.

The sales growth of the BP Dishes and Food seasonings is on a slightly higher level than last year taken that the sales of the product group Food seasonings is 2% higher compared to the year 2009, while Podravka dishes suffered a 5% drop. The highest increase within this Business program was recorded on the market of Western Europe, overseas countries and the Orient (13%), with the highest contribution coming from the markets of Australia (36%), Turkey (129%) Austria (10%) and Canada (26%), respectively. A considerable growth of sales was also achieved on the market of Poland (13%), influenced by the entry into new categories of products, but also the recovery of the Polish zloty compared to HRK exchange rate (7%³), and on the market of Romania which recorded a sales growth of 9%.

Sales of the BP Meat increased by 2% generated by a higher level of sales in Croatia (2%) and a sales growth on the market of Western Europe, overseas countries and the Orient (20%) as a result of the sales growth of Canned ready-made meals and Liver paste.

The sales level of the BP Beverages is 16% lower compared to the year 2009 with the greatest impact on the sales fall coming from the Croatian market (-17%). A lower level of sales was also achieved abroad (-14%), resulting from a sales drop on the markets of Bosnia and Herzegovina (-11%) and Slovenia (-24%). Although this Business program recorded a decline in sales, the product groups of Beverage powders and Syrups recorded a sales growth on both domestic and foreign markets.

The market of Croatia realised sales in the amount of HRK 1,741.3 million, which represents 49.4% of the total sales of the Podravka Group. Sales in the year 2010 suffered a 7% drop compared to the same period of the year 2009, resulting from a drop of sales of both the SBA Food and Beverages (-7%) and the SBA Pharmaceuticals (-6%). Namely, the entire year 2010 was characterised by a lower level of domestic demand due to negative trends which are still present in domestic economy and are reflected in a more cautious consumption by domestic customers.

The realized sales of foreign markets in the year 2010 amounted to HRK 1,781 million, which represents a 4% growth compared with the year before. Significant sales growth was achieved on all foreign markets except South-East Europe where recession trends are still strongly present keeping consumption at a lower level. The highest absolute sales growth was achieved on the market of Western Europe, overseas countries and the Orient (16%) with the highest contribution coming from the markets of Australia (29%), Austria (28%) and Turkey (175%), respectively. Significant sales growth was also recorded on the market of Central Europe (8%) based on sales growth on the markets of Poland (21%), the Czech Republic (2%) and Slovakia (2%). East-Europe realised a 20% higher level of sales generated by sales growth on the markets of Russia (25%) and Romania (14%). In contrast to positive trends in Central, Eastern and Western Europe and overseas countries, the market of South-East Europe recorded a sales drop of 5% as a result of lower sales on the markets of both Bosnia and Herzegovina (-7%) and Serbia (-12%).

Total		3,278.3	100.0	3,411.9	100.0	96

The operating costs/expenses of the Podravka Group in the observed period totalled HRK 3,278.3 million, which represents a 4% reduction of operating costs/expenses of HRK 133.6 million, respectively, compared to the same period of last year. Taken that the operating costs/expenses have declined for the second consecutive year, it can be concluded that cost management mechanisms are efficient especially in the part of General and administrative expenses.

The cost of goods sold is 3% lesser which correlates with the fall of sales revenue. The cost of manufacturing material (-1%) and employee costs (-2%) recorded the largest reduction within the cost of goods sold, while energy costs increased (10%).

Selling and distribution costs also dropped in the observed period and are HRK 19.3 million (-3%) lesser. This reduction results from lower sales force costs (-4%) and lower storage costs (-3%).

Marketing expenses increased 1% in the observed period and reached the amount of HRK 401.2 million, which mostly results from higher trade and BTL marketing expenses which had been planned as a response to the forecasted recession trends.

General and administrative expenses recorded a drop of HRK 52.6 million (-18%) in the year 2010 and have reduced their share in total operating costs/expenses from 8.8% to 7.6%. General and administrative expenses have steadily decreased over a period of two and a half years which has impact on the growth of profitability, despite lower levels of sales than planned. This decrease of General and administrative expenses is an expected positive effect arising from the reorganisation conducted in the SBA Food and Beverages and the implementation of efficient cost management mechanisms. Lower employee costs and lower costs of services and provisions were items that most significantly influenced the reduction of these expenses.

Although the Podravka Group recorded lower sales in the year 2010 compared to the year before, significant positive progress has been made at all profitability levels as a result of improvement of business processes and more rational cost management.

The gross margin increased by 80bp in the observed period due to the drop of cost of goods sold and is now 41.1%.

In the year 2010 extraordinary items reached HRK 66.9 million and refer to bond value adjustments in the amount of HRK 34.2 million (financial liability at fair value in the profit and loss account) and value adjustments of the share in investment funds in the amount of HRK 1.7 million, severance payments in the amount of HRK 12.5 million and provisions on the grounds of contractual relations with OTP Bank in the amount of HRK 21 million. Apart from negative extraordinary items there were also positive ones in the amount of HRK 2.4 million which refer to land value adjustments. Despite the aforesaid extraordinary items which negatively effected business results, the Podravka Group achieved operating profit in the amount of HRK 204.9 million and an operating margin at the level of 5.8%, while the net profit in the year 2010 was HRK 84.2 million.

A comparative analysis with the year 2009 showed that extraordinary items were HRK 481.3 million and the disclosed result of the previous year was adjusted for the amount of HRK 92.9 million, which refers to provisions based on the contractual relations with OTP Bank. Namely, until the disclosure of audited

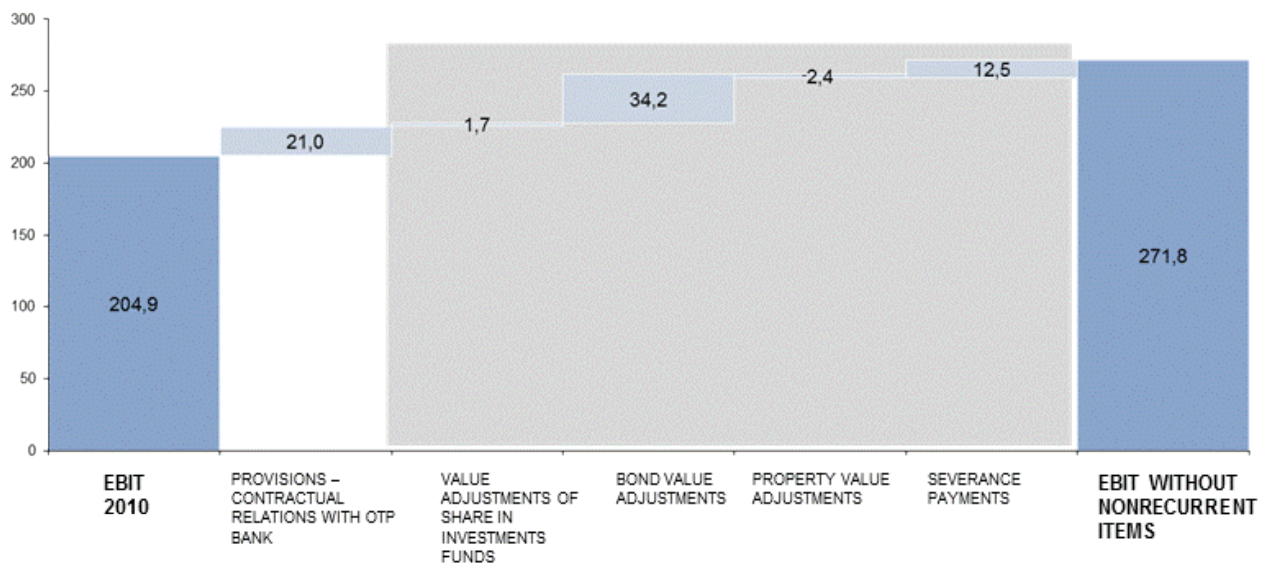

financial statements for the year 2009, the Management Board was not in possession of the complete documents nor was it possible to obtain relevant legal interpretations of the contractual relations which would clearly indicate the need to make provisions in the aforesaid amount.

The correction of operating profit for the above quoted extraordinary items has increased the level of operating profit to HRK 271.8 million, which represents a growth of 27% compared to the operating profit of 2009 disclosed in a comparable manner.

The corrected net profit in the observed period amounts to HRK 151.1 million, which represents a growth of 51% compared to the net profit of the year 2009 disclosed in a comparable manner.

The SBA Pharmaceuticals recorded lower sales of prescription drugs within the sales structure due to lower prices which together with a lower level of sales of OTC products resulted in reduced sales of this SBA by 1%. At the same time, a drop of cost of goods sold of 4% occurred and the gross margin recorded a positive shift of 160bp. The drop of cost of goods sold is mostly contributed by lower costs of manufacturing material (-5%) and lower employee costs (-4%).

The operating profit grew by 5% which increased the operating margin by 13.2%. Lower financing costs (-4%) had positive effect on the growth of net margin by 110bp.
